

The top row contains three line charts comparing actual performance (ФАКТ) with the plan (План) for Views (Показы), Views (Просмотры), and Contacts (Контакты) from April 5 to April 26.

- Показы (Views):** The plan is significantly higher than actual performance, reaching approximately 45,000 by the end of the period.
- Просмотры (Views):** The plan is also higher than actual performance, reaching approximately 6,000.
- Контакты (Contacts):** Actual performance is higher than the plan, reaching approximately 75.

The bottom chart is a combined bar and line chart showing daily Views (Показы) and Budget (Бюджет) from April 1 to April 30.

- Показы (Views):** Represented by a blue line with data points. Values fluctuate between approximately 150 and 350.
- Бюджет (Budget):** Represented by green bars. Values are generally high, peaking at 99.7 in early April, and then dropping to around 25-35 by mid-April.
